

# NONPROFIT LEADERSHIP, M.A.

---

**Director,** Kent Annan

The MA in Nonprofit Leadership prepares students to lead in a wide range of mission-driven organizations, both domestically and internationally. Students will be equipped to lead by integrating faith, best practices, an in-depth understanding of the sector, experience-based learning, a relational approach, and practical competencies. The program is ideal for students seeking to begin or to advance their careers and can lead to future doctoral studies.

For undergraduates, an accelerated M.A. option is available. After completing 60 credits, students can begin taking graduate-level courses that may count toward both their undergraduate degree (with approval) and the M.A. in Nonprofit Leadership.

## Requirements

**Requirements for the Nonprofit Leadership** program leading to a Master of Arts degree consists of the successful completion of 36 semester hours.

| Code  | Title  | Credits   |
