

D.MIN., THEOLOGICAL/ MINISTRY MASTER'S ENTRANTS

Overview

The Doctor of Ministry for Theological/Ministry Master's Entrants is a 48-credit hour doctoral degree designed for applicants with a theological or ministry master's degree.

Learning Objectives of the D.Min. degree include:

- *Advanced Theological Integration:* The D.Min. program gives graduates the ability to engage cultural context with advanced theological acumen and critical thinking.
- *In-Depth Contextual Competency:* The D.Min. program gives graduates the ability to identify and frame crucial ministry issues.
- *Strategic Planning and Implementation:* The D.Min. program equips graduates to enhance their impacts as ministerial leaders.
- *Personal and Spiritual Maturity:* The D.Min. program enables graduates to reinvigorate and deepen vocational call and extend tenure in ministry. D.Min. programs are integrative in that they are focused on spiritual, personal, moral, and ministerial formation.

As part of this D. Min. program, all students are required to complete a doctoral project, which serves as the capstone of the D.Min. program. It is an opportunity for students to connect knowledge gained from their coursework with the concrete realities of their ministries:

1. Identifying a challenge they face in ministry and situating that challenge in their context
2. Reflecting theologically on that challenge
3. Designing a new ministry initiative to address that challenge which must then be implemented and assessed

Partnerships:

As a part of our mission to commit to the development of missional organizations, we have developed partnerships with various ministries and organizations in order to focus the class discussions on their particular context and apply theory to the issues relevant to the partner ministry organizations.

Flexible Learning Format:

Most students will continue to serve in their current ministry roles while completing the program part time. While most of the courses will be delivered as one-week intensives, some courses may be offered in an online format at the discretion of the Program Director. This is to provide students the opportunity to come to campus just two weeks in a year and be able to immediately apply their learning in their current context while earning this doctoral degree.
